PORTFOLIO

- + **Stalk Market** - A desktop and mobile app designed to connect farmer market vendors with shoppers. The application allows a user to locate the nearest farmers market and to explore the vendors attending that market. Shoppers have the ability to save their favorite vendors, while all vendors can update items or promotions they may have.

Technologies used: [Ruby on Rails](#), [ReactJS](#), [Ajax](#), [Devise](#), [PostgreSQL](#), [Google Maps API](#), [Facebook Omni-Auth](#), [RSpec TDD](#), and [Javascript \(ES6\)](#), [Materialize](#), and [HTML/CSS](#).

- + **B.o.B** (Best of Buddies) - An app made to allow your child to communicate with your computer. It allows for custom responses and topics.

Technologies used: [Sinatra](#), [Ruby](#), [Bootstrap](#), and [Pry](#).

- + **Remindr** - A shared 'to-do' list. Allows multiple users to combine their to-do lists. Useful for verifying you've completed tasks.

Technologies used: [Ruby on Rails](#), [Materialize](#), [Devise](#), [PostgreSQL](#).

EXPERIENCE

MAY 2016 - PRESENT

DevPoint Labs, Salt Lake City, UT - *Full-Stack Software Developer*

- Worked with multiple teams and instructors to improve programming knowledge.
- During a team hackathon we produced and deployed an application called Remindr within 8 hours. We were awarded 2nd place in the competition.
- Worked in a team of four to create and deploy an application geared toward connecting farmers market vendors with shoppers. We completed the app in less than 4 weeks and won best designed application by our peers.

Technologies used: [JavaScript \(ES6\)](#), [Ruby on Rails](#), [Github](#), [ReactJS](#), [Redux](#), [PostgreSQL](#), [Sinatra](#), [jQuery](#), [Ajax](#), [Materialize](#), [Bootstrap](#), and [HTML/CSS](#).

JAN 2013 - MAY 2016

Key Commercial Bank, Salt Lake City, UT - *Regional Treasury Manager*

- Exceeded my 2016 sales goal by over 116% in all serviced markets.
- Successfully launched four new treasury products on time or ahead of schedule.

Technologies used: [Bloomberg Terminal](#), [Factset](#), [Salesforce](#), and [Microsoft Office](#).

OCT 2006 - JAN 2013

Key Equipment Finance, Denver, CO - *Senior Economics Analyst*

- Prepared, monitored, and analyzed profitability of global markets rates.
- Helped reduce booking errors by 23% by re-writing and implementing new training material.

Technologies used: [Bloomberg Terminal](#), [Factset](#), [SuperTRUMP](#), and [Microsoft Office](#).
