EXPERIENCE

MAY 2016 - PRESENT
DevPoint Labs, Salt Lake City, UT - *Full-Stack Software Developer*

- Worked with multiple teams and instructors to improve programming knowledge.
- Teamed with others as we develop an application called B.o.B, which allows parents to communicate with their children via their computer.
- During a team hackathon we produced and deployed an application called Remindr within 8 hours. We were awarded 2nd place in the competition.

Technologies used: JavaScript, Ruby on Rails, jQuery, ReactJS, and HTML/CSS

JAN 2013 - APR 2016
Key Commercial Bank, Salt Lake City, UT - *Regional Treasury Manager*

- Exceeded my 2016 sales goal by over 116% in all serviced markets.
- Successfully launched four new treasury products either on time or ahead of schedule.

Technologies used: Bloomberg Terminal, Factset, Salesforce, and Microsoft Office.

OCT 2006 - JAN 2013
Key Equipment Finance, Denver, CO - *Senior Economics Analyst*

- Prepared, monitored, and analyzed profitability of global markets rates.
- Helped reduce booking errors by 23% by re-writing and implementing new training material.

Technologies used: Bloomberg Terminal, Factset, SuperTRUMP, and Microsoft Office.

AUG 2005 - SEP 2006
Guitar Center, Denver, CO - *Operations Manager*

- Effectively managed crews ranging from 24 to 78 employees. Job duties including: recruiting, performance reviews, and developmental coaching.
- Our team ended four consecutive quarters at or below our loss prevention goal.

Technologies used: Microsoft Office, Inhouse WMS Tool

OCT 2004 - JAN 2005
Backcountry.com, Park City, UT - *Search Marketing Analyst*

- Became fluent in search marketing with the use of Google Adwords and Yahoo Overture.
- Successfully produced over 65,000 key word uploads with a error rate below 2%.

*Technologies used: Google Adwords, Yahoo Overture, and Microsoft Office.*

PORTFOLIO

+ **B.o.B** (Best of Buddies) - An app made to allow your child to communicate with your computer. It allows for custom responses and topics.
+ **Terminal Manual Directory** - This app helps access your terminals bash directories to help educate you on various syntax. Search capabilities and embedded shortcuts.
+ **Remindr** - A shared 'to-do' list. Allows multiple users to combine their to-do lists. Useful for verifying that your tasks get done.

SKILLS

Ruby	ReactJS	JQuery
Rails	Redux	Microsoft Office
JavaScript	HTML/CSS	OSX
